

Dear eClaimLink Providers and Payers,

Claims Data Collection – Update

In reference to the circulars shared before regarding the Clinical result reporting requirements ([eClaimLink Update and New Requirements 26-06-2018](#) and [Claims Data Collection Update 2018-10-01](#)), the Dubai Health Insurance Corporation (DHIC) would like to notify you that the new reporting structure and validation rules launch date has been changed, and the new effective date will be **Wednesday 30th January, 2019**.

Kindly note that here have been some changes on the reporting structure for few Clinical tests and the updated observations document will soon be available to download through [eClaimLink> DHD> Documentation](#).

Also note that the updates are applied on specific tests as per the below:

1. Change in Units for **CHOL, HDL, LDL, TRIG**. The new unit for reporting is **mg/dl**.
2. New CPT mandates for **CHOL** and **HDL**:
 - a. **CHOL Mandate with CPT=82465 (Old CPT=80061)**
 - b. **HDL Mandate with CPT=83718 (Old CPT=82465)**
3. Framingham Cardiovascular Risk Assessment Score **will be postponed until further notice**.

Kindly be aware that you must complete your data collection as per the new reporting requirements for all claim transactions that have the **Submission date** on or after **Wednesday 30th January 2019**.

If you have any additional concerns, you are kindly requested to communicate directly with the Dubai Health Insurance Corporation (DHIC) via email: dataHFD@DHA.gov.ae

Best Regards,

Information Desk Officer
