

Dear eClaimLink Provider,

Claims Data Collection – Update

Pursuant to the circular titled, “ [eClaimLink Update and New Requirements 20180626](#)” published on June 26th, 2018 regarding the new test results reporting requirements, the Dubai Health Insurance Corporation (DHIC) would like to notify you that the new reporting structure and validation rules launch date has been changed, and the new effective date will be on **Tuesday, November 13th, 2018.**

Please be aware that the validations will be applied on the claim transaction date and not the encounter or activity date. Accordingly, you must complete your data collection as per the new reporting requirements for all claim transactions that have the submission date on or after Tuesday November 13th, 2018.

Over the past week, the DHIC team and eClaimLink support have received several enquiries and concerns regarding the result reporting new format and requested structure. If anyone has any additional concerns, please send them to dataHFD@DHA.gov.ae at the earliest.

Best Regards,

Information Desk Officer
