

Dear DHCC Providers,

We are pleased to announce the integration between Dubai Healthcare City Regulation's **Masaar** System and DHA's eClaimLink System.

This integration will ensure that accurate Health Professional licensing information is up-to-date within eClaimLink.

Masaar System will inform you of your new created eClaimLink credentials through an automated email and your Masaar user profile.

If eClaimLink user credentials are updated in Masaar System at any point, the integration will ensure that the new details will be updated in eClaimLink at 03:00 am daily.

For further support:

- General queries DataHFD@dha.gov.ae
- eClaimlink Application Support@eclaimlink.ae
- User credentials and Masaar queries Support@masaar.ae

Best Regards,

Information Desk Officer
